---

See attached email. She has a copy of it.

The summary of the discussion is in the last email.

In addition, she states in her email EPA shut down the bridge. EPA nor ODEQ shut down the bridge project. This has been relayed on numerous occasions.

Katrina Higgins-Coltrain  
Remedial Project Manager  
US EPA Region 6  
LA/OK/NM Section (6SF-RL)

**Subject:** RE: Media inquiry on Wilcox site

She wants to double-check something:

I think this meeting – sept 25 - was just a discussion about the nearby superfund site.

I don't think EPA knew about them moving the dirt until a month later – Oct. 27 or 28 – when they halted the project.

**Subject:** RE: Media inquiry on Wilcox site

This was the initial meeting with ODEQ to understand the situation with the fill material that

was taken from the site.

**Subject:** RE: Media inquiry on Wilcox site

Follow-up question:

Do you know what the meeting was about?

I think it had to do with the bridge contamination in Bristow, OK – when dirt was moved from the superfund site to the bridge project site.

OK, so this was shared with her in a prior FOIA?

**Subject:** RE: Media inquiry on Wilcox site

Here is the list, which she has. She has a grand FOIA that includes all of the ODOT information.

There is no summary of the meeting. This was the initial meeting with ODOT to understand the situation.

**Subject:** Media inquiry on Wilcox site

Hi Katrina—

I got another inquiry about the Wilcox site. See below. Does this meeting sound familiar? (I'm guessing HUB is a contractor for ODOT.)

Thanks,

Jennah

x2287

On Sept 24, 2015 – who with ODOT (name/title) and who with HUB Construction (name/title) attended a meeting with the EPA about the Wilcox Superfund Site being near the 8<sup>th</sup> street bridge project in Bristow, OK?

Is there any documentation of that meeting or what was said in that meeting?
